ABOUT US

AMC
Ashok Marketing Company

AMC Group of Companies, a leading heavy machinery solution provider was founded in 1980 by Shri R.P. Bothra. During our journey of more than 40 years in the field of spare parts and services we have collaborated with many reputed organization throughout the globe and have established ourselves as a Genuine Spare Parts Supplier for globally reputed mobile crane manufacturers.

AMC
AMC Services & Engineers Pvt. Ltd.

AMC Services & Engineers Pvt Ltd was established in 2004 and is a "One Stop Solution" for spare parts of all types of mobile cranes. We are a complete solution provider for parts, service, maintenance and overhauling with proven top-class services to our customers.

ShreeBalaji
Equipments Pvt. Ltd

Shree Balaji Equipments Pvt Ltd was established in 2002 and is an Authorized Distributor for World class OEM's like Kobelco, Godrej, Palfinger, Manitou, Bobcat and Franna. We also provide After Sales Service for various Material Handling, Earthmoving, Mining & Construction Equipment.

AMC
INFRA RENTALS LLP

AMC Infra Rentals LLP is the latest venture in the AMC Group. It caters to our corporate customers by providing quality equipment on rent at affordable rates. We have an experienced team on board to provide service support.

MANAGEMENT

R. P. BOTHRA
HEAD - AMC Group

The driving force behind AMC Group, Mr R. P. Bothra is a pioneer with over 50 years of industry experience. He conceived and built the group's foundational philosophy of 'Single Window Solutions' in mobile crane services — a vision that transformed a focused enterprise into one of Eastern India's most trusted names in heavy equipment and industrial services.

ARVIND BOTHRA
DIRECTOR

With a Production Engineering background and 20+ years in the heavy equipment industry, Mr Arvind Bothra leads AMC Group's business development with a rare blend of technical depth and business insight. His domain expertise across material handling, mining, and construction machinery enables clients to get not just products, but the right solutions for their specific needs.

PRASHANT BOTHRA
DIRECTOR

With over 25 years at the helm of procurement, distribution, and key account operations, Mr Prashant Bothra brings deep commercial instinct and operational rigour to AMC Group. His leadership has been instrumental in building enduring supplier relationships and driving the company's growth across business verticals.

ANU BOTHRA
DIRECTOR

Ms Anu Bothra leads Marketing at AMC Group, bringing 17+ years of experience across Hindustan Unilever, L'Oréal India, and Emami Ltd. She is driving the group's shift towards modern brand building, digital presence, and structured growth.

ROHIT BABEL
DIRECTOR

Mr Rohit Babel directs AMC Group's Tyres & Lubricants division, drawing on over 21 years of cross-industry business experience. His focused leadership has rapidly accelerated the division's market reach and commercial performance, establishing it as a key growth pillar within the group.

AXLETECH

Cummins Meritor

Axletech manufactures a wide range of heavy-duty axles for all your off-highway commercial needs. Axletech Axles include equipments like Mobile Cranes, Construction and Mining Machinery and Oilfields Trucks.

CARLISLE

CARLISLE

Genuine Carlisle replacement parts guarantee superior brake performances, less machine downtime, lower life cycle costs and safer operating conditions. Carlisle provides an aftermarket service kit for a complete brake system solution.

AUSCO

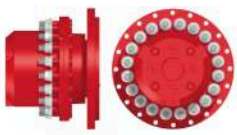
AUSCO PRODUCTS INC.

Ausco's spring-applied hydraulic released multi-disc brakes are used in hydraulic and electric configurations. Ausco features wet and dry designs with standard and specialty splines, these compact brakes deliver reliable dynamic service and static parking torque to suit nearly any application.

KESSLER

KESSLER+CO

Kessler + Co is a leading manufacturer of drivetrain components and control software for the vehicles requiring heavy mobility. Renowned manufacturer of drive steer planetary axles and drive planetary axles, gearboxes, wheel drives and electric drive systems.



OMCI

OMCI S.p.A.

OMCI manufacturers approximately 1,000 axles and 200 wheel hubs per year, closely monitoring the entire production process. Company's added value lies in human relations and in the high degree of product customization.

FOAM FILLED TYRES

FOAM FILLED TYRE

Carlisle TyrFil is the leading global supplier of polyurethane tire fill and productivity technologies for off-the-road (OTR) equipment tires, OEM and aftermarket – providing superior product performance and value. All of our product brands are formulated to improve safety and increase productivity in demanding OTR applications where operating equipment reliability is critical.

CARLISLE TYRFIL IS COMMITTED TO PRODUCING ENVIRONMENTALLY SUPPORTIVE TYRFIL PRODUCTS AND TECHNOLOGIES.

Benefits

- Eliminates 100% flat tires
- Utilize total tire life
- Experience air-ride deflection

Objections

WEARS OUT TOO FAST!

- The proper PSI and product for the application will result in optimum wear
- Remember, use the right tire for the application

TOO HEAVY!

- TyrFil is lighter than most solid tire options
- TyrFil is a supporting weight, not a hanging weight

IT RIDES TOO HARD!

- Lowers G-force impact to operator and equipment
- Reduces operator fatigue
- Less stress on machine components

Industries

- Mining
- Military
- Ports
- Agriculture
- Airports
- Forestry
- Steel Mills
- Recycling
- Housing Development
- Construction
- Sugar Mills
- Rental Equipment
- Waste Management
- Scrap Metal
- Industrial Maintenance
- Concrete Pre-Cast

Equipment

- Wheel Loaders
- Skid Steer
- Telehandler
- Piggyback Forklift
- Backhoe
- Agri Tractor
- Aerial Work Platform
- Grader
- GSE
- LHD
- Slag Pot Carrier
- Cranes
- Forklifts
- Light Equipment
- Shuttle Cars
- Drills
- RTG Cranes
- Roof Bolter
- Scraper

TyrFil is a polyurethane liquid that is pumped into pneumatic tires to replace air with a resilient, synthetic elastomer core that eliminates dangerous and costly tire flats on off-the-road (OTR) equipment. Even in the most hazardous environments, tires filled with TyrFil will never go flat. Despite cuts and punctures, filled tires will keep performing – increasing productivity and eliminating costly downtime for field operators.

The fact that polyurethane-filled tires work with a wide variety of tread patterns and tire constructions allows for greater flexibility in various applications. The material can be used in any tire with a sound casing and is able to sustain tire pressure and footprint shape. Also, polyurethane tire fill comes in a variety of durometers so the type of fill can closely fit the application – from a softer fill for comfort and deflection, to a harder fill for slow moving equipment with high pressure requirements.

TyrFil offers the smoothest and safest flatproofed ride for thousands of demanding OTR applications, including the construction, waste management, mining, municipality, military, and rental equipment markets.

Trust Built With Consistency...

FILTERS

We provide most of the renowned brands of Filters and also stock extensive range of fast moving items for majority of popular models. We are specialised in providing all Types of **Fuel Filter, Lube Oil Filter, Water Separator, Air Filter, Return Line Filters, Suction Strainer, Pilot Filter, Breather, Servo Filter, Bag Filter, Line Filter.**

Donaldson
FILTRATION SOLUTIONS

Donaldson is a global leader in filtration solutions, with over 100 years of expertise in protecting engines and equipment across demanding environments. **We offer a complete range of Donaldson filtration solutions for engine and equipment protection. : Air Filters, Oil Filters, Fuel Filters, Hydraulic Filters, Coolant & Lube Filtration Solutions.**

Hengst
FILTRATION

Hengst is a globally recognized German technology leader in filtration and fluid management systems, serving automotive, industrial, and heavy-duty applications. **We offer a wide range of Hengst filtration solutions for heavy-duty and industrial applications: Air Filtration Systems, Oil Filtration, Fuel Filtration, Hydraulic Filtration.**

LOAD MOMENT INDICATORS

AMC SpyroKAB X Series LMI

A Load Moment Indicator for Telescopic & Lattice cranes

AMC SpyroKAB Screens

The AMC SpyroKAB Load Moment Indicator (LMI) is a powerful, all-in-one safety and monitoring solution designed for Telescopic and Lattice Boom Cranes, Knuckle Boom Cranes, and Reach Stackers. Its key hardware highlights include:

- **7" Full HD Colour Display** (available from 4" to 21") with 1000-nit LED Backlight – fully sunlight readable
- **High Resolution Resistive Touchscreen** with On-Screen Touch Function Keys
- **Built-in Logic Engine** with Networking and I/O capability
- **Integrated Data Logger** with Expandable Capacity
- **The SpyroKAB X Series** continuously monitors and displays:
  - Rated Load Chart (RLC) display
  - Boom Length and Boom Angle
  - Hook Block Prevention
  - Overload Alarm with Audio/Visual Warning
  - Customised Welcome Screen (including company logo)

Additional capacities can be added as per operational requirements.

Navis Wireless Anemometer

Navis is a European technology leader specializing in high-performance anemometer systems designed for safety-critical environments. These systems are widely used across construction and industrial sectors to ensure safe operation under varying wind conditions.

The Navis system is a wireless, easy-to-install solution comprising:

- W410 Display Unit – Backlit LCD with clear visibility
- Wind Sensors (WS-010 / WSD-010)
  – With optional wind direction measurement
- Hand-held Display (WR3B)
- Magnetic mounting systems for quick installation

The system is designed for quick deployment without complex wiring, ensuring flexibility across applications

BOBCAT COMPACT EQUIPMENT

Bobcat is a globally renowned brand and the inventor of the skid-steer loader (since 1958), known for its legacy of performance, reliability, and innovation. We offer a wide portfolio of Bobcat compact equipment, including:

- **Skid Steer Loaders** – Industry-leading machines for versatility and performance
- **Backhoe Loaders**– Powerful and fuel-efficient machines for multi-application use
- **Mini Excavators** – Compact yet high-performance solutions for precision work

FRANNA PICK & CARRY CRANES

Franna **Pick and Carry Cranes** are highly versatile mobile lifting solutions designed for quick load handling and transportation within industrial, construction, mining, and infrastructure sites. Known for their compact design, exceptional maneuverability, and strong lifting capacity, Franna cranes can lift and carry loads without the need for outriggers, making them ideal for confined and fast-paced work environments. Their efficiency, mobility, and ease of operation help improve productivity while reducing downtime on site.

SERVICE CENTER FACILITY

Equipment Overhauling / Refurbishments :

We undertake Refurbishment project for the following Equipments. We have Factory trained Engineers and decades of experience to successfully execute both Onsite & Offsite jobs.

- **Rough Terrain and Truck mounted Cranes**
- **Manitou Telehandlers**
- **Palfinger Cranes**
- **Kobelco Excavators**
- **Godrej Forklifts**
- **Bobcat Skid Steer Loaders**

Technical Services /Onsite-Offsite Service Support:

We provide excellent after-sales service support to our customers for maintaining their Equipments completely. We have team of experienced engineers on board to provide a complete solution related to Part support and services.

- **Turnkey and Retrofit upgrading project for Hydraulic Systems**
- **Filtration Services for NAS/ISO standards of Hydraulic media**
- **Technical Health assessment of Hyd. Units & Mobile Equipments**
- **Parts Recommendation for Preventive and Breakdown Maintenance**
- **Training on Hydraulic and Pneumatic systems**
- **Annual Maintenance Contracts**
- **Operation and Maintenance Contracts**
