

**Genuine PowerCore[®]
Air Filter Technology**

DON'T RISK IT

**WHEN IT COMES TO
FLEET MAINTENANCE**

**The best choice is genuine
PowerCore[®] air filters.**

When it comes to protecting your engine, **Why take chances?**

Smart managers **demand proven performance** when it comes to **engine protection**.

Donaldson's revolutionary **PowerCore® air filters** have been meeting original equipment manufacturer specifications and **exceeding performance** requirements for **more than 20 years**.

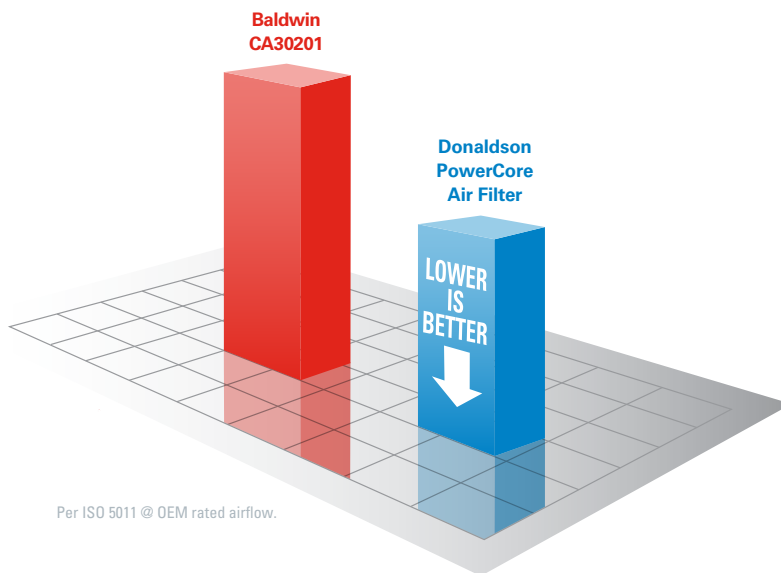

In that time, PowerCore air filters have **logged billions** of **off-road hours** and on-road miles **protecting engines**, reducing downtime and driving cost savings for operators around the world.

Today, PowerCore air filters continue to **set new standards** with smaller, lighter air cleaners and airflow designs that **deliver superior efficiency and dust-holding capacity**.

It's no wonder leading OEMs, fleet operators and equipment owners insist on genuine PowerCore air filters. They're the best choice.

Choosing a non-genuine air filter may seem like it's saving you money until you realize it *underperforms* compared to **Genuine PowerCore[®]** air filters

Genuine PowerCore PSD21 air filters deliver **better efficiency compared to Baldwin** and **greater dust-holding capacity when compared to Wix**.

Better efficiency
Protecting longevity with

37%

less dust through the system than the Baldwin CA30201 filter

Higher levels of contamination in engine air may result in accelerated wear and ultimately, premature component failure.

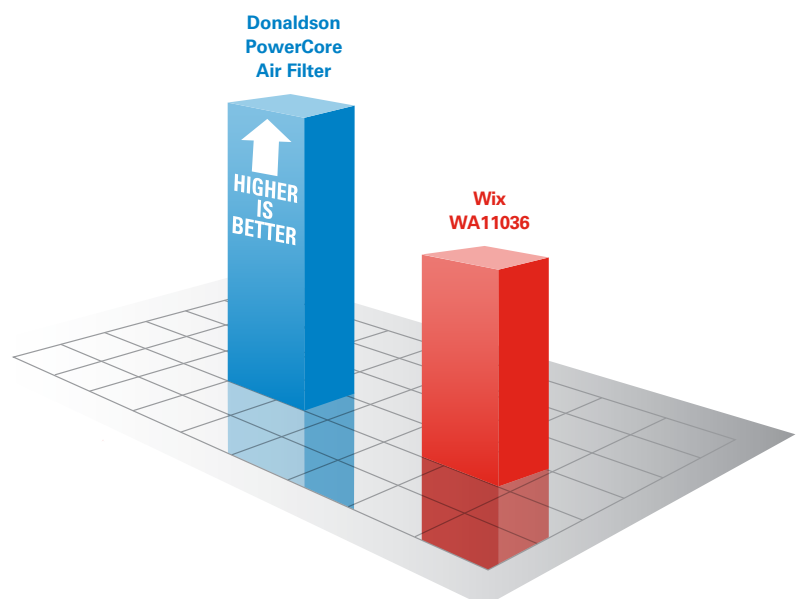

Better dust-loading

Extending filter life with

38%

more contaminant-loading capacity than the Wix WA 11036 filter

Greater filter capacity means longer filter life, which means fewer filter changes and less money on maintenance.

50 Million Reasons to Choose Genuine Donaldson PowerCore® Filters

Straight-through air flow offers proven protection

We've put more than **50 million PowerCore** air filters into equipment in hard-working, challenging environments.

PowerCore filters are trusted by truck drivers, construction workers, and farmers. Wherever there is a job to be done, genuine Donaldson PowerCore filters are providing superior protection and performance, extended uptime, and the cost savings realized by less-frequent maintenance. **PowerCore filters are the best choice.**
